### Product Feature

Steel Surface-mount and Small Box Hinges are visible when the box is closed or open. So if you want to accentuate the hinge and draw attention to the back of the box, surface-mount hinges are a great choice. Selecting the right hinges to fit each special box can be a hard task. There are so many types that it's tough to make the right choice. There are two factors to consider when you're deciding which hinge will be right for your box. First is appearance. Another factor is the size of the box and the weight of the lid. Understanding each type's strengths and weaknesses will let you refine your box design and find that perfect hinge each time.
