Steel Spring Door Stop with Ruber Head

Product Introduction

The cheap Steel Spring Door Stop with Ruber Head is similar to baseboard door stoppers, using a spring mechanism to keep the door from banging against the wall, resulting in a bounce back if individuals attempt to close the door too harshly. Rubber bumper tip protects the door from getting damaged while spring design allows flexibility with door. Attach to the baseboard to prevent damage to walls, spring door stops can be installed on the baseboards or the wall to reduce the potential of damage to your home or business. Our wide base design restricts those heavy, fast swinging doors from slamming into your walls and creating those dreaded doorknob holes, while also safeguarding your wood, steel, and fiberglass doors from marks and scrapes. Keep those damage and repair bills away with Zongyi higher quality door stoppers.
